

Science - Properties and Changes of Materials

Children will be able to compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity and response to magnets.

They will know that some materials will dissolve in liquid to form a solution and describe how to recover a substance from a solution.

Year 5 children will use knowledge of solids, liquids and gases to decide how mixture might be separated, including through filtering, sieving and evaporating.

Children will be able to give reasons, based on evidence from comparative and fair tests, for particular uses of everyday materials including metals, wood and plastic.

They will demonstrate that dissolving and mixing changes of state are reversible changes.

Children will explain that some changes result in the formation of new materials and that this type of change is usually not reversible.

SPRING 1 - 2018 Year 5

English

They will learn about the features and write an explanation text based on explaining processes and how they work.

Children will also study persuasive texts and the features they contain.

In addition to this we will be studying several different tenses in grammar lessons and putting them into context.

PSHE & Citizenship – Keeping Safe

Children will understand the responsibilities adults have for children and how children begin to take some responsibility themselves.

They will develop an understanding of situations that might encompass risk (travelling, alcohol related situations) Children will consider how they view themselves in risky situations.

Year 5 children will understand how self-confidence and assertiveness can help to keep themselves safe.

They will develop an understanding of situations where adult and / or peer support might be beneficial in avoiding risk.

Physical Education Rugby and Gymnastics

Children will use running, jumping, throwing and catching in isolation and in combination.

They will play competitive games, modified where appropriate, for example rugby, and apply basic principles suitable for attacking and defending.

Year 5 children will develop flexibility, strength, technique, control and balance.

(Gymnastics)

They will perform dances using a range of movement patterns and compare their performances with previous ones and demonstrate improvement to achieve their personal best.

Children will engage in competitive sports and activities with other schools.

Maths

Children will identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths. They will compare and order fractions whose denominators are all multiples of the same number.

Children will read and write decimal numbers as fractions (for example, $0.71 = \frac{71}{100}$) recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents. They will recognise the per cent symbol (%) and understand that per cent relates to "number of parts per hundred", and write percentages as a fraction with denominator 100, and as a decimal.

Geography – Map Skills

Children will use maps, atlases, globes and digital/ computer mapping to locate countries and describe the features studied.

Children will use the 8 points of a compass, 4- and 6- figure grid references, symbols and key (including the use of Ordnance Survey maps) to build knowledge of the United Kingdom and the wider world.

French – Hare and the Tortoise (adjs)

Children will recognise and use the core language for describing people and some animals. They will understand, use and respond to: Quelle heure est-il? Tue s comment? Elle est comment? Children will recognise and understand words in a story, song and tongue-twister. They will recognise and understand the use of adverbs. Year 5 children will become familiar with the circumflex accents of a/o, they will reinforce vowel sounds and compare ou and u.

Computing – Staying Safe Online

Children will be able to use technology safely, respectfully and responsibly. They will recognise acceptable / unacceptable behaviour and identify steps to take to stay safe. Children will understand the link to **Bullying Awareness** in PSHE

Art

Le Corbusier

Children will observe building and identify ideas behind the architects design. They will be taught about great artists, architects and designers in history.

To create sketch books to record their observations and use them to review and revisit ideas

Music

Children will learn the popular song 'Make you feel my love' by Adele.

They will listen and appraise various songs linking to theme of pop ballads.

Using band/orchestral instruments with classroom instruments to create an ensemble that engages all children is exciting!

Children will perform their composition for the class.

Religious Education Expressing Faith in Art, Drama and Song

Children will be able to express faith in art, drama and song.

Children will learn about the faiths of Judaism and Christianity through beliefs, practises, prayer and reflection.

Children will respond to Judaism and Christian texts.

Bringing Learning to Life

Affinity water- workshop

Children will gain an understanding of the Science, Technology, Engineering and Maths involved in the building, maintenance and daily operations of the water industry.

They will learn about the scientific processes involved in getting clean and safe drinking water to their taps, where water comes from and an appreciation of why and how water should be conserved.

Children will take part in a range of activities enabling them to gain knowledge of how water is used and wasted.
