

Science States of Matter

Children will compare and group materials together, according to whether they are solids, liquids or gases.

They will observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C)
Children will identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature.

Working scientifically

Children will ask relevant questions and using different types of scientific enquiries to answer them.

They will set up simple practical enquiries, comparative and fair tests

Children will make systematic and careful observations and, where appropriate, taking accurate measurements using standard units, using a range of equipment, including thermometers and data loggers

They will report on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions.

They will use results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions.

French On y va! (All aboard!)

Listen attentively to spoken language and show understanding by joining in and responding.
Explore patterns and sounds of language and link the spelling, sound and meaning of words.

Develop accurate pronunciation and intonation so that others understand when they are reading aloud or using familiar words and phrases.
Appreciate stories, songs, poems and rhymes in the language.

Read carefully and show understanding of words, phrases and simple writing.

Music Mamma Mia

Play and perform in solo and ensemble contexts, using their voices and playing musical instruments with increasing accuracy, fluency, control and expression.

Listen with attention to detail and recall sounds with increasing aural memory.

AUTUMN 1 Year 4

English

Vocabulary Building- List poems – the children will focus on extended similes.

A Story with a Theme – the children will focus on a story linking into PSHE (bullying)

Non – Chronological Reports - the children will be given time to research and write a non – chronological report on the Anglo Saxons.

Year 4 will also have lessons on grammar.

History – Anglo Saxons

Children will know the specialist vocabulary and terminology related to these invaders and settlers.

They will learn the key features, sequence and duration of these societies.

They will understand the reasons for the arrival of the Saxons, Vikings and Scots.

Children will know the differences in reasons for migration between Saxons and Vikings and between these societies and today.

They will know about the Saxons, Vikings and Scots and the use that can be made of the available evidence.

They will identify the characteristic features of different groups within these societies.

Children will understand the challenges facing the early settlers and how they overcame them.

They will know how the arrival of these societies might be interpreted differently.

They will identify the main features regarding the chronology, reasons for invading and settling and the main features of these societies.

PSHE & Citizenship Feelings and Relationships

Children will show and describe what a friend is and does.

They will understand that friendship patterns change and how to cope with some friendship problems.

They will recognise and be able to talk about feelings in different situations, know strategies to cope with some fears and worries.

Children will understand the nature of sameness and difference within their school and community.

They will identify different ways people are treated by society dependent on age, gender, cultural and ability.

They will understand that people's response to events can be determined by age, religion and culture.

Children will consider some of the changes that take place in people's lives, reflect on changes in own lives.

They will recognise some emotions involved in loss situations, consider what is helpful, unhelpful in such situations.

They will know about their rights and responsibilities at home, school and the community.

They will understand why school rules are made and the consequences of keeping and breaking them.

They will have begun to experience different approaches to decision making and problem solving, including democratic discussion and consensus.

Art Andy Warhol – Pop Art

Children will use sketch books to record observations and use them to review and revisit ideas.

They will improve their mastery of art techniques, including drawing and painting with a range of materials including printing techniques.

They will learn about Andy Warhol and his famous technique Pop Art.

Bringing Learning to Life

Chiltern Open-Air Museum

Anglo-Saxon Day

Physical Education Tri-Golf and 6T's Rapid Fire Cricket

Children will play competitive games, modified where appropriate and apply basic principles suitable for attacking and defending.

Gymnastics

They develop flexibility, strength, technique, control and balance through gymnastics.

Computing – Digital Literacy and Information Technology - Staying Safe online.

Children will use and combine a variety of software on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.

Maths

Children will use appropriate mathematical skills to solve a problem.

They will learn how to organise work, looking for ways to record systematically and check as proceed.

They will draw mathematical models to support visualisation of problems.

Children will use a structured approach to tackle the problem (devise a plan).

Religious Education Christians, Hindus and Sikhism

Children will use key religious vocabulary in communicating their knowledge and understanding.

They will identify and begin to describe the similarities and differences within and between religions.

They will investigate the significance of religion in the local, national and global communities.

The children will learn about individual beliefs and consider the ways in which members of faith communities describe their understanding of God/gods.

They will describe the key aspects of religions and traditions that influence the beliefs and values of others.

Children will know the main rituals within acts of worship or meditation and recognise that shared feelings are a part of worship.

They will identify examples of the way in which personal and religious beliefs may influence their behaviour and that of others
